

2.3.1 Student centric method

- **Experiential learning:**

- **Study tours and Field visit:**

All Departments Student are actively participated in regular field Practical Classes. Educational Field Visit & Study tour provide students with a great opportunity to learn about Students with practical knowledge attained in the real world. Field trips to important place encourage students to develop knowledge and engaged to learn from these experiences. Microbiology, Zoology, botany and electronics departments arrange field visit & study tour as a part of curriculum.

Year	Department	Date	Places Visited	No. of students	Class
1	Zoology	24/10/24	Vernicomposting event by Nss	12	NSS Student
2	Microbiology	23/3/2024	Someshwar sugar factory	05	T.Y.Bsc students
		22/3/2024	Agharkar research centre Hol	13	S.Y.Bsc students
3	Botany and Zoology	20/10/2023	Rahuri college of Agriculture,pune	40	S.Y.Bsc students
4	Electronics	19/04/2024	Someshwar sugar factory	47	S.Y.BCS students

- **Vernicomposting done by NSS Department**

VERMICOMPOSTING

Vermicomposting is in practice in the college started from Academic year 2022-23. The campus area of the college is full of greenery with wild, ornamental and medicinal plants. Foliage collected daily is properly disposed in the vermin-composting pits constructed for the same purpose. Before using foliage for compost it is crushed with the help of foliage cutter machine and then gets stored in the pits. Earth worm species *Eisenia foetida* is selected for this purpose.

Daily sprinkling of water maintains proper moisture in the pits. Mixing of 25% cattle dung in the foliage gives best result. Period of 2-3 month is required for the proper conversion of the foliage into bio-fertilizer vermin-composting depending on population of the worms.

Produced vermi compost is used as a bio-fertilizer for campus plantation and excess vermin compost is sold to the students in minimum rate. In this way this is an attempt for self funding to the college and at the same time students are also provided knowledge about the project and guided to use such type of project in the farming also. This is an attempt to minimize the pollution create environmental awareness among the students.

Objectives -

The objective of the pre-feasibility report is primarily to facilitate potential entrepreneurs in project identification for investment and in order to serve his objective; the document covers various aspects of the project concept development, start-up, marketing, finance and management.

● Introduction

Vermiculture is the culture of earthworms. Vermicomposting is a method of preparing compost in which earthworms are used to convert organic materials (usually wastes) into a humus-like compost.

Earthworms consume biomass and excrete it in digested form called worm-casts. The casts are rich in nutrients, growth promoting substances, beneficial soil micro flora and having properties of inhibiting pathogenic microbes.

Vermi-compost is a measure produced by composting waste materials by using earthworm. Earthworm digest as low as two percent of the food consumed by it and hence excrete about ninety eight percent of food consumed. The excreta of earthworm is always considered as a natural manure. The modern method of controlled feeding and collection of excreta is known as

Earthworm species

There are nearly 3600 types of earthworms in the world and they are mainly divided into two types: (1) burrowing; and (2) non-burrowing. The burrowing types live deep in the soil. On the other hand, the non-burrowing types convert the organic waste into vermicompost faster. The earthworm species commonly used for vermicomposting are:

Eisenia foetida (Red earthworm)

Eudrilus eugeniae (African earthworm or night crawler)

Perionyx excavatus (Composting earthworm)

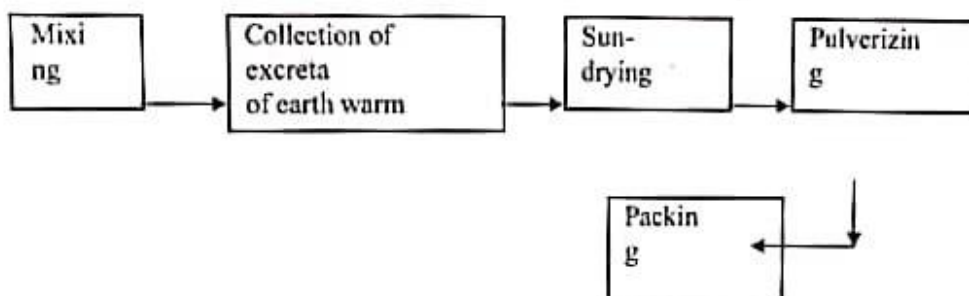

Procedure of vermicomposting

A. Preparation of organic wastes for vermicomposting

- Breaking of large lumps
- Cutting of bigger plant parts into smaller ones
- Exposing to sun to reduce excess moisture content
- Application of 4% aqueous solution of neem pesticides to kill insects, if any
- Treatment with lime dust to reduce pH

Half decomposition of these materials is done by heaping the above mixture with sufficient moisture content for 21 days.

Process Flow:

Raw Materials: Though bio-degradable solid wastes of kitchen, farm, etc. enable one to produce vermicompost, these become rich in N but slightly deficient in P & K. Therefore, mixing of materials rich in P & K helps. Also to enhance porosity of the raw materials use of Saw dust/cut hay are done.

Capital Cost estimate:

1	Land admeasuring 1728 sq.ft.	Own
2	Shed and vermicomposting tanks	Rs.35750/-
3	Water installation	Rs. 2,500/-
4	Culture	Rs. 1600/-
5	manure	45000/-
6	shade net	800/-
7	Transport	1500/-
8	Labour Charge	6000/-

B. Preparation of vermi bed

Vermi bed is prepared by putting pebbles, sand and loamy soil one above the other is having 2 inches of thickness each at the bottom of the unit. Alternatively coir or any plant refuse which does not decompose easily can also be used. This should be watered followed by putting well decomposed FYM of 4 inches thickness over it.

Putting the substrates and composting

- Above the layer of FYM the half decomposed materials are to be kept to fill up the pit. Then the worms are released.
- When there are more number of pits, half decomposition can be done in some of them in which different materials can be put in layers till the pit is filled up and worms are to be released after the thermophillic stage of half decomposition is over.
- For a 2m X 1m X 0.6m (= 1.2 m³) tank 2 kg earthworms (2000 to 2500) are to be released.
- The number worms may be doubled when they are available in more quantities and compost is necessary to prepare within a month instead of normal time of 2 months.
- After filling up of the unit, it is to be covered preferably with an old wet gunny bag to reduce loss of moisture and encourage the activities of the worms at the surface. Intermediately the unit is to be watered to maintain moisture content of 40-50%

D. Harvesting and post-harvest technologies

- Harvesting of vermicompost is done when the compost looks dark brown and soft.
- The compost is piled for 3-4 hours so that the worms go down and form a ball which can be separated for further use or selling the worms at premium price.
- After separation of worm balls, the compost should be dried under shed for reducing

its moisture content to around 30%.

- The compost is passed through a sieve of 2-3 mm diameter so that the earthworm cocoons and the undecomposed materials could be separated for further use.
- Packaging and labelling can be done to attract the consumers for commercial production and at farmers' level it can be kept in gunny bags.
- After completion of the process, the vermicompost should be removed from the bed at regular intervals and replaced by fresh partially decomposed organic materials.

E. Precautions during the process

The following precautions should be taken during vermicomposting:

- The floor of the unit should be compact to prevent migration of earthworms into the soil.
- Only plant-based materials such as grass, leaves or vegetable peelings should be utilized in preparing vermicompost.
- Materials of animal origin such as eggshells, meat, bone, etc are not suitable for preparing vermicompost.
- *Gliricidia* loppings and tobacco leaves are not suitable for rearing earthworms.
- The organic wastes should be free from plastics, chemicals, pesticides and metals etc.
- 15-20 days old cow dung should be used to avoid excess heat.
- The earthworms should be protected against birds, termites, ants and rats.
- Adequate moisture should be maintained during the process. Optimum moisture level (30-40 %) and 18-25°C temperature should be maintained.

Advantage : vermicompost product which is about the organic fertilizer made from the worm dropping.: Advantage 1. repair soil PH
2. cheaper than chemical fertilizer 3. Save environment
4. fasten the plant growth 5. give good quality and organic product price

Market: With massive propagation of Chemical fertilizer and pesticides in last few decades demerits of such fertilizer and pesticides came into focus of the world. It was found that such fertilizers and pesticides harm not only human health but also the environment and the very soil on which agriculture is done. Alternatives like manure and compost are therefore found to be better fertilizer.

Capacity: The unit shall need to work 365 days for three shifts. Worker shall however work for single shift per day, where they will mix the feed in tank, collect and pack vermicompost. As care need not be taken every-day all unskilled workers shall be employed on daily contract basis. The annual installed capacity is estimated at 30 Tonnes of vermicompost.

Subject: Application for industrial visit...

Respected Sir,

With reference to above subject , writing this letter to request permission to visit Someshwar Sugar Factory , Someshwarnagar along with the total 21 students and 2 faculty members along with 15 students from S. Y. B.Sc. and 06 students from T.Y.B.Sc. Microbiology class of our college. Along with education, extracurricular activities, and industrial visit are also necessary for the growth of a student's mental capability. Industrial visit includes ethanol production, Microbiology laboratory, water treatment plant, etc.

We will be much obliged if you grant us permission to arrange this visit. Hope for your cooperation in this regard.

Thank you.

Subject: Request letter for educational visit of T.Y.B.Sc (Microbiology) and S.Y.B.Sc (Microbiology) students

Respected Sir,

Apart from academic lectures, Research Institute visit is part of Education. In this regard, T.Y.B.Sc (Microbiology) students and S.Y.B.Sc (Microbiology) students of Someshwar Vidnyan Mahavidyalaya, Someshwarnagar, Pune 412306, visit various institute every year. In this connection, 6 students of T.Y.B.Sc and 15 students of S.Y.B.Sc along with 2 faculty Members intend to visit your Research Project, Sadobachiwadi on 22nd March 2024. We believe that your research staff will give our students relevant knowledge during this visit.

It is requested that necessary arrangements for the subject visit may please be made, and confirmation of the same may please be communicated to us as soon as possible.

A detailed report on 'Plant Propagation Technology and Start-up' workshop

A Workshop on 'Plant Propagation Technology and Start-up' was conducted on Saturday, 03/02/2024 at Someshwar Science College of Shri Someshwar Shikshan Prasarak Mandal.

The workshop organized jointly by Student Development Office, Savitribai Phule Pune University and Department of Botany, Someshwar Science College, Ssomeshwarnagar. The workshop was guided by the noted environmental expert and founder president of Devrai Foundation Shri. Raghunath Dhole.

While introducing the formal program, Head of Botany Department and coordinator of this workshop Prof. Shubham Thombare explained the intention of this workshop is to encourage students to develop businesses like nurseries through tree planting technology in rural areas like ours. The principal of the college and chairman of this workshop Dr. S. B. Suryavanshi said the importance of such a program for the development of students in the college.

The core workshop was held at Someshwar Devrai, in the premises of the educational institution. At this time, on field and in-depth information about the need of various indigenous trees in Devrai to maintain the balance of nature and the cultivation of those trees was given by Mr. Raghunath Dhole. On this occasion, the Director of Shri Someshwar Cooperative Sugar Factory and trustee of the educational institution, Mr. Rushikesh Gaikwad, Vice Principal of the college Mr. Dhananjay Bansode, Student Development Officer Shri. Santosh Pingle, all faculty and non-teaching staff were present.

For this workshop President of Education Institute Mr. Purushottam Jagtap, Vice President Shri. Balasaheb Kamthe, Director Representative Mr. Anandkumar Holkar, all Board of Directors and Secretary of the organization Shri. Bharat Khomene gave goodwill.

A total of 87 students participated in this workshop. The anchoring was done by Prof. Kalyani Kare and acknowledgment was presented by Prof. Samruddhi Pawar.

Mr. Raghunath Dhole, Mr. Rushikesh Gaikwad and Mr. Shubham Thombare, Ms. Samruddhi Pawar with the participated students

Exploring Career Opportunities and Placement in IT Industries

Date: February 26, 2024

Venue: Someshwar Science College, Someshwarnagar

Organizer: Department of Computer Science & SDO, Someshwar Science College.

Guest Speakers:

- 1) Prof. Gajanan Joshi, Vidya Pratisthan's Arts, Science, Commerce College Baramati.
(HOD & Asst. Prof. Of Department Of Computer Science)
- 2) Prof. Gautam Kudale, Vidya Pratisthan's Arts, Science, Commerce College Baramati.
(Asst. Prof. of Department Of Computer Science)

Introduction:

On February 26, 2024, the Department of Computer Science at Someshwar Science College organized a one-day workshop focusing on career opportunities and placement in the Information Technology (IT) industry. Held at the college premises in Someshwarnagar, the workshop aimed to provide participants with insights into the diverse career paths available in IT and equip them with the necessary knowledge and skills to secure placements in reputed IT companies.

Session Highlights:

Inaugural Session:

The workshop commenced with an inaugural session featuring esteemed guest speakers, Prof. Gajanan Joshi sir and Prof. Gautam Kudale sir. Asst. Prof. Jagtap. R.S, Head of the Department of Computer Science, extended a warm welcome to all participants and emphasized the importance of the workshop in guiding students towards successful careers in the IT industry.

Expert Talks:

Prof. Gajanan Joshi sir delivered the keynote address, sharing his valuable insights into the evolving landscape of the IT industry and the career opportunities it offers. He highlighted the importance of continuous learning, adaptability, and innovation in staying relevant in the fast-paced world of technology.

Prof. Gautam Kudale, an experienced professional in the IT sector, delivered an expert talk on strategies for securing placements in top IT companies. He provided valuable tips on Project building, interview preparation, and developing soft skills essential for success in the corporate world.

Skill Enhancement Workshops:

Concurrent workshops focusing on technical and soft skills enhancement were conducted throughout the day. Topics covered included programming languages, project management, communication skills, and teamwork. Participants gained practical insights and hands-on experience under the guidance of experienced faculty members and industry professionals.

Conclusion:

The one-day workshop on career opportunities and placement in IT industries organized by the Department of Computer Science at Someshwar Science College was a resounding success. Participants gained valuable insights, practical skills, and networking opportunities essential for pursuing successful careers in the IT sector. The event underscored the importance of holistic preparation, including technical proficiency, soft skills development, and industry engagement, in securing lucrative placements in reputed IT companies.

Acknowledgments:

We extend our sincere gratitude to Prof. Gajanan Joshi and Prof. Gautam Kudale for their enlightening speeches and valuable contributions to the workshop. Special thanks to all the faculty members, guest speakers, workshop facilitators, and participants for their active involvement and enthusiastic participation, which made the event a memorable success.

Future Prospects: Building on the success of this workshop, the Department of Computer Science remains committed to organizing similar events in the future. By incorporating feedback from participants and staying abreast of industry trends, we aim to continue empowering students with the knowledge, skills, and placement opportunities needed to excel in the dynamic field of Information Technology.

NOTICE

All students of F.Y.B.Sc. F.Y.B.Sc. (Comp.Sci), S.Y.B.Sc.(Microbiology) and T.Y.B.Sc.(Microbiology) here by inform that on 29th August 2023 **One Day Workshop** is organized by 'Department of Microbiology' in collaboration with "Shirish Laboratory, Baramati". In which Blood group detection activity is also arranged.

The details of workshop is as follows:

Day : Tuesday

Date :29th August 2023

Time: 11.00 am

Topic: "Health Awareness"

Activity: Blood group Detection

Venue: Seminar Hall

Engineering college building.

Shubhangi...
Head,
Department of Microbiology

Subject: Appreciation letter

Respected Sir,

This letter indicates a special appreciation and gratitude for coming and delivering a lecture held at **26th February 2024** at Someshwar Vidnyan Mahavidyalaya, Someshwarnagar. Heartfelt thanks for providing a lecture on "Topic: Life Skills and Personality development" and for motivating the students. This act of kind consideration will be kept alive in the will power of the students until the end of the time. We wish to have you more often with interesting talks and topics.

Wishing you good health and wisdom.

Thank You,

Yours Sincerely,

Principal

REPORT ON WORKSHOP ON LIFE SKILLS AND PERSONALITY DEVELOPMENT
Shri Someshwar Shikshan Prasarak Mandal's, Someshwar Vidnyan Mahavidyalaya, under the Microbiology department and Students Development Council, Savitribai Phule Pune University, Pune jointly organised one day workshop on " Life skills and personality development".

* **DATE :** 26th February, 2024. **Day:** Monday

* **RESOURCE PERSON:**

1. Prof. Girish Kukreja, Writer and motivational speaker.

***PARTICIPANTS:** B.Sc. AND M.Sc. students.

* **NUMBER OF PARTICIPANTS=75**

* **ABOUT THE WORKSHOP:**

Programme were inaugurated with Vrukshsanjivani by chief guest Mr. Aanadkumar Holkar Director representative, Shri Someshwar Shikshan Prasarak Mandal's, resource person Mr. Girish Kukreja, Principal Dr. S.B. Suryawanshi, vice principal Prof. D.V.Bansode, student development officer Prof. S.G. Pingale, all head of the department, teaching and non teaching staff and students also. Resource person were felicitated with principal Dr. S.B.Suryawanshi. Participants were introduced to the resource persons. The session started with the introduction on the topic and the importance of life skills and personality development in personal and professional life.

Participants were explained about the communication method and the process of effective communication, understanding the cycle of communication starting from the sender to the receiver of the message. The different levels of communication were explained and how lateral and horizontal forms of communication among colleagues, peers at the same level for information sharing and coordination helps to save time. As communication is key, knowing and understanding the filters and barriers that can hamper one's overall communication is a must. Participants were encouraged to practice active listening as it helps in overall communication skills. Focus was laid on the ways of how an individual communicates (spoken word, visuals, written word, body language and social media). Understanding that Communication is not only about spoken words it also deals with visual and vocal.

The second topic was focused on personality development. The resource persons instructed the participants on how to built up personality. Participants were given an insight to the need to select the right candidate and assess the candidate if he/she has the skill set required as per the needs of the organization. Program was concluded with vote of thanks. Participants also shared their feedback and experiences of the workshop.
